

## Winch and Hoist Solutions -- Lead-Times

**Lead-times are estimates only and may vary based on factory backlog, quantities ordered and options selected. Contact the Seattle Factory if lead-time is critical.**

Lead-times are calculated from the time the Seattle Factory receives a client's order, to the point when the unit is ready to ship.

**Shipping / transit times are not factored into the lead-time estimates.**

**> NOTE: Options usually add lead-time. Average lead-time increase for popular options is 2 - 3 weeks <**
